

BEGINNING OF TERM TWO NEWSLETTER 2020

GREETINGS

Dear Parents,

Warm greetings from BSK; a special welcome to our new parents, please feel at home. BSK is a place your child will be nurtured under a great system that is manned by a number of well trained and gifted people. You will also be amazed at how both young and old take good care of one another. To our continuing parents, I hope you have had an enjoyable break with the children. They all look great. Thank you for choosing BSK and for all the references.

As usual, we are happy to start a new term. The staff successfully completed their termly training that was filled with knowledge sharing. These trainings usually give our staff a firm starting point.

BSK in its quiet and fresh environment looks beautiful and very conducive for studies, we urge you once again, to encourage the children to take advantage of this cool atmosphere.

Academics

Every student is expected to have a personal revision timetable. The Form tutors will have a conversation with the students about this before end of week one. Kindly support your child once you realize they are struggling with putting to use their timetables.

The candidates are getting set. They have special revision time in the morning which is supervised by their form tutors. Furthermore, they have been excused from taking part in some school programmes like; the Wednesday morning Aerobics and Clubs.

The Mock exams will be starting soon. As we prepare the candidates for the season, we request you to encourage them to do more research and seek assistance from teachers. It will also be good if you encourage them to take enough rest and be off social media during this period.

The mock results are extremely important especially to the A level students because many times some Universities request for Predicted grades if one has to get a University conditional admission before results are released. These results are therefore very useful. We shall have more to share about the students' progress during the class info days this term.

The Optimum Learning Centre (OLC)

We have come up with another special package for this section. The OLC learners will be equipped with more Do It Yourself (DIY) skills. These include Emergency Preparedness, First Aid and Cardiopulmonary Resuscitation (CR) and other life skills. These will be done every Tuesday and Wednesday at 1:00pm.

Sports

Our Sports Day will take place this term, on 2nd April 2020. However, we have a number of home and away matches this term in basketball. The school coaches are going to share the schedule during the weekend with the parents of each participant. Once again, we appreciate the support you give us, whenever we are taking part in the competitive games. Please keep it up.

School Policies And Regulations

Our Information note, is a very useful tool that can guide you on most of what we require as a school in terms of compliance. The school rules and regulations are also another guide that reminds us about our responsibilities, therefore we encourage you to refer to them.

Other than these two, we have also been sharing with you our annual calendar and list of events. These too, are very important reference tools because they help you to plan family activities without having your child absent when school programmes are running.

We encourage you to share with us two weeks in advance whenever your child has any reason for missing school activities because at BSK we count on every child.

Please continue working with us, so that your child can grow in confidence, with a love of learning, and determination to be the best person they can be.

Explain to your child that treating everyone with respect, being on time every day, wearing the correct uniform and working hard is important to them. The value you place on these as a parent will be the value your child holds.

I wish you a peaceful term.

Madam Mirian Ndyanabo
Head Teacher
