

# BSK SECONDARY SECTION MINI CIRCULAR

18TH MARCH 2020

Dear Families and Friends,

As the COVID-19 continues to impact the world, we surely believe that we shall get to normalcy soon.

We have followed the directive of His Excellency the President to have schools closed, starting Friday 20th March, 2020 until further notice.

Am happy to report that all our staff will be active online and ready to work with you.

Yesterday, a list of contacts was shared and we believe that, the staff support will go a long way in keeping the learners up to date with the learning information as provided in the course outlines at the start of term. Kindly note that this online engagement, will go on until the end of term.

Kindly support and supervise the children's learning during this period. The easiest way here is to try and follow a strict time table so that the children keep focused. Encourage them to play at the right time, take snack and take lots of fluids. Consistency in the way you implement the use of the timetable in the first days is going to help you manage them and keep them focused.

As for the Year 11 and 13 students, we know that this is a particularly stressful moment for them. We empathize with them and will be available to assist online. We will relay any examination related information as soon as it is available. We urge them to make the very best of this time as they can.

We are here to support you, please reach out to us when you have any inquiry.

Thank you very much

Madam Mirian Ndyanabo
