Volume 1, Number 1

Glad to have you back!

Happy new academic year everyone! Welcome back and a warm welcome to all the new families that have joined our school this year. The holidays were short and the days flew by so fast! I am certain that you have had an enjoyable holiday. I know the children have lots of exciting stories to share.

I am happy that we have yet another term that is fully packed with both academic and fun activities for our learners. While they were away, the teachers worked hard throughout the holidays just to make sure that the classes were ready at the first day of school.

Regular lessons begin tomorrow, Tuesday 30th August. Encourage your child to be consistent for a successful year ahead. Club lists and topic outlines for this term have been sent home today, please check in your child's homework folder.

Primary School Heads of Departments

Heads of departments (HoDs) play a crucial role in the distributed leadership structure in a school. The department head is responsible for pushing and striving for success in a specific subject area. On behalf of the team, I take extreme pleasure in introducing and informing you of the promotion of Mr. Kisero, Mr. Farouk and Ms. Flavia to Head of departments position.

Mr. Farouk Nyanzi is the STEM head of department. He has been with the school for seven years. Mr. Nyanzi believes that every child can learn something new from any material presented before them. His main target is to get the young learners to apply what they learn in school into their daily lives, to make education come to life!

Mr. Eric Kisero will head the SPORTS department. He has been with the school for five years. His passion, zeal and enthusiasm towards sports have put BSK on the map both locally and internationally. Mr. Kisero believes that hard work beats talent and that any learner can achieve their hearts desires if they put work and focus into it. His vision is to have each child excel in a sporting activity that they have a passion for.

Ms. Flavia Namuswe will be heading the ARTS department. She has been with the school for the last ten years. Her passion for the written language leaves no doubt that she will help stir the school in the right direction. Ms. Flavia hopes to have students not only learn what is required of them, but to have them want to discover more on their own and generally want to learn.

TERM ONE	DATE	ACTIVITY
AUGUST	Friday, 26 th	Year one class meeting
	Monday, 29 th	First day of term one
SEPTEMBER	Thursday, 1 st	Year 2 & Year 3 class meetings
